

In the Claims

Please substitute the following claims:

Claim 5 (amended):

Q5 The wiring clip according to claim 1, wherein said first attachment means for attaching comprises a J-hook.

Claim 6 (amended):

The wiring clip according to claim 5, wherein said second attachment means for attaching comprises a bend in the second arm which can be slipped around an inner edge of the second side of the framing member.

Claim 10 (amended):

Q6 10/37 The wiring clip according to claim 1, wherein said wire receiving area comprises a closure means for securing the wiring within the wire receiving area.

Claim 11 (amended):

The wiring clip according to claim 10, wherein said closure means for securing the wiring within the wire receiving area comprises a snap mechanism.

Claim 14 (amended):

Q7 10/37 A method for securing electrical wiring to a metal framing member with a wiring clip, wherein the wiring clip comprises a main body; a wire receiving area; a first arm, wherein said first arm is located at a first end of said main body, and said first arm comprises a first attachment means for attaching said first arm to a first inner edge of a metal framing member; and a second arm, wherein said second arm is located at a second end of said main body and said second arm comprises a second attachment means for attaching said second arm to a second inner edge of the metal framing member, the method for securing comprising the following steps:

- 
- a) positioning the electrical wiring along a metal framing member;
 - b) attaching said first arm to a first inner edge of the metal framing member via said first attachment means for attaching said first arm to a first inner edge of the metal framing member;
 - c) moving said wiring clip over the metal framing member such that the electrical wiring is positioned within said wire receiving area;
 - d) attaching said second arm to a second inner edge of the metal framing member via said second attachment means for attaching said second arm to a second inner edge of the metal framing member.

Claim 15 (amended):

The method for securing electrical wiring to a metal framing member with a wiring clip according to claim 14, further comprising the step of securing said wiring clip to the metal framing member with a secondary attachment means for attaching said wiring clip to the metal framing member.

Please add the following new claim(s):

- 
16. The method for securing electrical wiring to a metal framing member with a wiring clip according to claim 15, wherein said secondary attachment means for attaching said wiring clip to the metal framing member is a screw, wherein said method comprises: attaching said wiring clip to the metal framing member with the screw.
